### **Call for Applications for Funding Opportunity**

#### **Overview:**

We provide funding support for international collaboration. This funding opportunity is intended to strengthen research collaboration between researchers in China and overseas. The primary purpose of the funding is to help researchers cover the costs of travel and open-access journals publications. The research output must benefit China's research community and service industry.

#### **Qualification of Applicants:**

Applicants need to be global researchers with outstanding research record in the relevant research field. The lead applicant must be based abroad. The applicant team should include at least one researcher based in China (Mainland). Nationality is not essential. Only one applicant can be labelled as the "lead applicant". All members of the applicant team must have a Ph.D. or equivalent research experience and hold a permanent (senior) position in a global university or research institute.

#### **Research Field:**

The funding will support researchers working in international trade, especially in promoting exporting capacities and opportunities for firms in China. Theoretical research is also welcome, but research output needs to link theory with potential empirical findings.

#### **Funding Amount:**

Funding can be maximum of ¥20,000 / \$3,000 / €3,000 / £2,500.

#### **Duration &Deadline**

The application deadline is December 31, 2022.

The funding duration can be a maximum of one year.

The project is only for one year and cannot be extended.

#### **Application Procedure and Transfer of Funds:**

The funding will be paid to the lead applicant's institution. All applicants must agree to transfer the funds to the lead applicant's research institution. The lead applicant's employer institution must be willing to administer the grant. It is the responsibility of the applicants to provide related documents and make the related arrangements.

Applications must be made in English.

#### **Requirements:**

Successful applications must acknowledge the financial support of Beijing Lati-Tech LLC and deliver at least one Web of Science (WoS) publication on the proposed research topic.
